AXIS TASK LAMP

Developed by The Conran Shop
in United Kingdom

Designed by TCS Studio

POWER ON / OFF

Wave your hand left or right over the sensor at a height of 2–10 cm. A single horizontal hand-wave will switch the device on or off.

BRIGHTNESS ADJUSTMENT

To increase or decrease brightness, hold your hand stationary above the sensor (within 2–10 cm) as if performing a gentle press-and-hold motion. The brightness will continue to adjust until you remove your hand.

220 – 240V ~ 50Hz
LED 6W
Indoor use only
Material: Aluminium
CE UK CA IP20

SAFETY & CARE INSTRUCTIONS

Clean using a soft, dry, lint-free cloth; for marks, use a slightly damp cloth with mild soap. Do not use abrasive or chemical cleaners, and prevent moisture from entering electrical components.

Keep the power cord free from damage and avoid tight coiling. Store the lamp in a cool, dry place when not in use for extended periods.

The LED light source is non-replaceable and designed for a long service life (approximately 30,000–50,000 hours). If performance declines or the lamp fails, do not attempt repairs - contact a qualified professional or retailer.

RECYCLING OF ELECTRICAL WASTE

As part of our commitment and to ensure compliance with the Waste Electrical and Electronic (WEEE) regulations, we are dedicated to promoting the correct treatment and recycling of EEE to reduce the quantity of electronic waste being sent to the landfill and help protect the environment.

The crossed out wheelie bin symbol printed on all electrical goods is there to remind customers not to dispose of them in household waste, but instead to take them to an appropriate facility where they can be disposed of safely.

PRODUCT DISPOSAL

Please check locally for your nearest recycling site for waste electrical and electronic items.

ABOUT THE CONRAN SHOP

Founded by Sir Terence Conran in 1973, The Conran Shop has established itself as one of the world's leading lifestyle retailers, curating how we live today. As the home of iconic designs and future classics, The Conran Shop offers an eclectic, hand-selected edit of furniture, lighting, and home accessories, championing the most respected designers and emerging talents, with prime retail locations across London, Kuwait, Japan, and South Korea.
